

## ◆ Summary

The IPOX® Indexes traded mixed last week in what appears a cautionary sign of the continuation of the strength in global benchmarks. While the IPOX Developed Markets indexes covering US, Europe and Asia-Pacific IPOs continued to show remarkable relative strength, IPOX Emerging markets fell.

# [ Week 01/15/2010 ]

## ◆ Highlights

### IPOX Global Universe

- The IPOX Global Indexes underperformed last week, with the flagship IPOX-30 Global Index (IPGL30) losing -1.71%, 93 bps more than benchmark S&P 500 (SPX) and 143 bps more than the MSCI World Index (MXWD).
- The underperformance was driven by the sharp drop in heavily-weighted Chinese Financials, with China CITIC (-14.05%) leading the way. Global Alternative Energy companies imploded after news from Germany about a perceived cut in subsidies for alternative energy companies, pressuring IPOX heavyweight First Solar (FSLR) (-11.18%).
- Most of the US-traded part of the IPOX universe, however, proved again resilient to increasing volatility in some growth sectors. For example, Time Warner Cable (TWC) rose +10.91% on bid rumors.
- 68/100 companies in the broad IPOX-100 Global Index (IPGL100) fell, with the average equally-weighted constituent losing -1.82%, similar to the applied market-cap weighted index.
- In IPOX Global Sectors, Consumer sectors gained, with IPOX Global Staples and Discretionary rising +2.02% and +0.16%, respectively. Volatile IPOX Global Financials (-3.97%), IPOX Global Industrials (-3.20%) and IPOX Global Materials (-3.18%) fell most.

### Focus IPOX U.S. Universe:

- Despite the sharp decline in selected global Alternative Energy companies, the IPOX U.S. universe continued to outperform last week, driven by big exposure to companies related to corporate actions. The IPOX-100 U.S. Index (ETF ticker: FPX) fell only -0.31%, markedly outperforming the respective benchmarks.
- Notable moves occurred in aforementioned Time Warner Cable (+10.91%) and Bare Escentuals (+33.46%) on buy-out. Amid the plunge in Brazilian payment processors, we note last week's big performance divergence between Mastercard (MA) (+3.41%) and Visa (V) (-0.99%).

### Focus IPOX Europe Universe:

- The IPOX Europe universe continued the relative strength into the second week of the New Year with the IPOX-30 Europe Index (IXTE) now 375 and 210 bps ahead of benchmarks (DAX) and DJ Stoxx 50 (SX5P).

### Focus IPOX Asia-Pacific (Developed):

- Despite its 57% weight in HK-domiciled stocks, the IPOX-30 Asia-Pacific continued to outperform, as the spread moved to a large +526 bps. in favor of IPOX vs. the Hang Seng Index (HSI). Strengths in Japanese constituents drove last week's notable rise.

## Objective

To provide access into the growth and innovativeness of the global economy and trends in Equity Capital Markets Activity in developed countries within a disciplined and totally transparent index methodology. The **IPOX-100 Global Index** captures the performance of the Top 100 largest and generally most liquid IPOs and spin-offs in developed and emerging countries ranked quarterly by market capitalization in the underlying IPOX Global Composite Index. The Index has historically captured around 75% of the total market capitalization in the IPOX Global Composite Index and applies certain diversification rules, such as a 10% capping on the largest constituents and a minimum average daily equity turnover of approximately USD 10 million.
